Fairley House

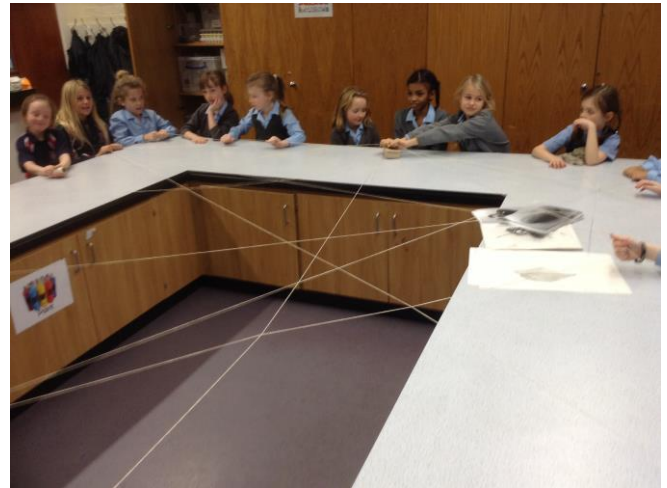

What's been happening this week at Fairley House...

GIRLS' CLUB AT LR (Lunchtime)

In Girls' Club today we spun a friendship web. Mrs. Jaynes started with the string. She then, passed it to another member of the Girls' Club. As she passed it, she told us something she admired, liked or that made the person she had passed it to, a great friend. This continued until we had all had a turn and our web was complete.

You can see the pictures for the results!

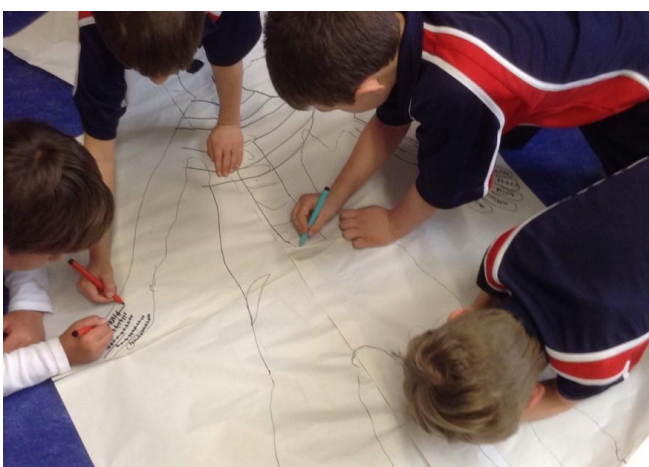

Through this, we learnt that all of us have amazing qualities and that we are all linked together in our friendships. We also learnt some of the attributes, which make us good friends and that are many things, which make us similar! The web went in all different directions, also highlighting that whilst we are in many ways the same, we are also all different and the thing, which we like about one person, may be different to the thing, which we like about another person, and we can still all be friends! Next week, we are looking forward to making our Girls' Club contract and friendship bracelets, before embarking on a term of fun-filled, creative, tasty and informative activities!

HUMAN SKELETONS

On Wednesday 11th January, we started our exploration of the human skeleton. We started by mind-mapping all of the things we already know about the human skeleton. Then, we looked at and discussed some aspects of the human skeleton, even having a feel of our own skeletons, before embarking on creating some life size models! We got into groups. We then chose one person to draw around.

Once, we had their outline, we then started to draw in all the bones, which we knew of. We also had a go at labelling the different bones and writing facts about our skeletons around the outside. Now, we are going to investigate the human skeleton in more detail and will be sure to update you with our findings.

CLUBS

JUNIORS - Glee Club

Grumpy orphans from Annie

Lego and Board Games

*Peer tutoring, showing the group how to play
Downfall.*

Science

SENIORS - Chess and Board Games

TABLE TENNIS AT CS (Breaktime)

Table Tennis has been growing immensely as a sport of choice for many students at Causton Street, playing table tennis every day of the week during the morning break. The numbers are rising and we now have 3 tables and the level is increasing. Students can work on their body co-ordination, agility, self awareness and on their racket skills. Wonderful progress from all the students involved!

KS3 GAMES

During games some of the pupils were involved in a mini racketball competition. Here are the two finalists in action. It was a battle and, in the end, there was just 2 point in it!

KS4 – MOCK EXAMS

Congratulations to all Year 10 and 11 on sitting their mock exams this week. Well done on all your hard work!

GCSE EXAM NEWS

CONGRATULATIONS to Eva Jones (Year 11) on gaining an A grade in her GCSE Maths.

Senior Department Top Credit Scorers

This week's top credit scorers are:

1. Katharina Thune
2. Arlo Ellis-Burke
3. Sylvan Farmer
4. Rodrigo Souza
